

Saferpay Test Login and Password

Dear Ladies and Gentlemen,

We are glad to send you the Saferpay test login and password. Please feel free to evaluate all Saferpay interfaces, functions and payment processes with this test login.

Username: e99867001

Password: XAjc3Kna (*attention to upper/lower case characters*)

Account-ID: 99867-94913159

Card number	Short name	Description
9451123100000004	Saferpay Test Card	Normal test card
9451123100000103	Saferpay Test Card Result	Test card for special result codes *
9451123100000111	Saferpay Test Card 3DS	Test card for 3D-Secure processing
5232000000000009	MasterCard Test Card	Saferpay MasterCard test Card
5232000000000017	MasterCard Test Card SC	Saferpay MasterCard test Card for SecureCode processing (3D-Secure)
4000000000000002	Visa Test Card	Saferpay Visa test card
4000000000000010	Visa Test Card 3DS	Saferpay Visa test card for "Verified by Visa" processing (3D-Secure)

*The last two digits of the AMOUNT attributes are defining the result code of the authorization answer. If their value is set to "00" the authorization will be successful. If the value is not equal to zero Saferpay will send an answer with RESULT="65" where AUTHRESULT will contain the error code.

The test login is enabled for the following Saferpay products and services:

- Saferpay E-Commerce Interface
- Saferpay Phone/Mail-Order
- Saferpay Backoffice
- Saferpay Card Authorization
- Saferpay Merchant Plug-In
- Saferpay Secure Card Data

The login is used by many developers. Therefore it is possible to find transactions within the test account which are not executed by yourself.

The test account supports the test card numbers, called "Saferpay Testing Cards". Other payment methods are not available for test purposes. Test cards do not have a dedicated CVC/CVV2 or expiry date. Both can be chosen freely. Mind only that CVC/CVV2 is numeric and expiry date lies ahead. Apart from that the test account's basic processes are identical to any other productive payment methods.

If you have any question or miss any kind of information please contact our support team by email at support@saferpay.com.

Now we wish you greatest success with Saferpay!
